

Aligned Assets Demo Day

The Conference Hall, Manchester Town Hall
Albert Square, Manchester M60 2LA

NUMBER ONE FOR GAZETTEERS

Wednesday 11th February 2009

Agenda

10.00 Welcome

10.15 Gazetteer Management - Phil Gee

- iManage NLPG, NSG & ASD
Aligned Assets' gazetteer management system that quickly and easily allows you to create, maintain and analyse your Street and Land & Property Gazetteer

11.00 Tea & Coffee

11.15 Moving your gazetteer forward - Mike Smith

- An Introduction to Data Management & Data Sharing
- iValidate
A validation tool to check for BS7666 compliancy and to enable a complete health check of your NLPG data
- iExchange
Software to disseminate your NLPG data to the National Hub and back office systems
- iMatch
Data matching software that allows for BS7666 standardisation of all organisation address data
- iSearchWeb
A web interface that enables authority-wide access to your LLPG data, plus a feedback facility that allows for authority-wide validation

12.15 Lunch

13.00 Case study

- Stockport Metropolitan Borough Council - Matt Hodgkiss
Matt will discuss how Stockport Metropolitan Borough Council have used Aligned Assets solutions to achieve joined up government

13.30 Beyond your gazetteer

- An Introduction to the Agile Development Process - Dinesh Thanigasalam
- Property Management System - Dinesh Thanigasalam
Aligned Assets' newest solution that will enable you to manage the acquisitions, sales, maintenance and legalities involved in property management
- Street Naming and Numbering (SNN) - James Shean
An additional module within iManage that can dramatically increase the efficiency of your SNN processes and is fully customisable to your way of working
- SinglePoint Search - Phil Gee
A sub-second NLPG search engine that facilitates multi-gazetteer searching
- Xtended Data Module (XDM) - Phil Gee
An additional module within iManage that allows for the addition of non-BS7666 data in your NLPG

14.30 Close
