

Consultancy & Support

BS7666 assistance every step of the way

Consultancy & Support

Aligned Assets - the BS7666 specialists

As the developers of the first BS7666:2006 accredited software solution, we are best placed to meet your council's needs and to provide timely and cost effective advice and solutions.

Data consistency is a complex issue facing many organisations and BS7666 necessitates the constant consolidation and refinement of that data. Our knowledge of gazetteer management and the BS7666 standard means that all necessary work can be completed to the very highest standards.

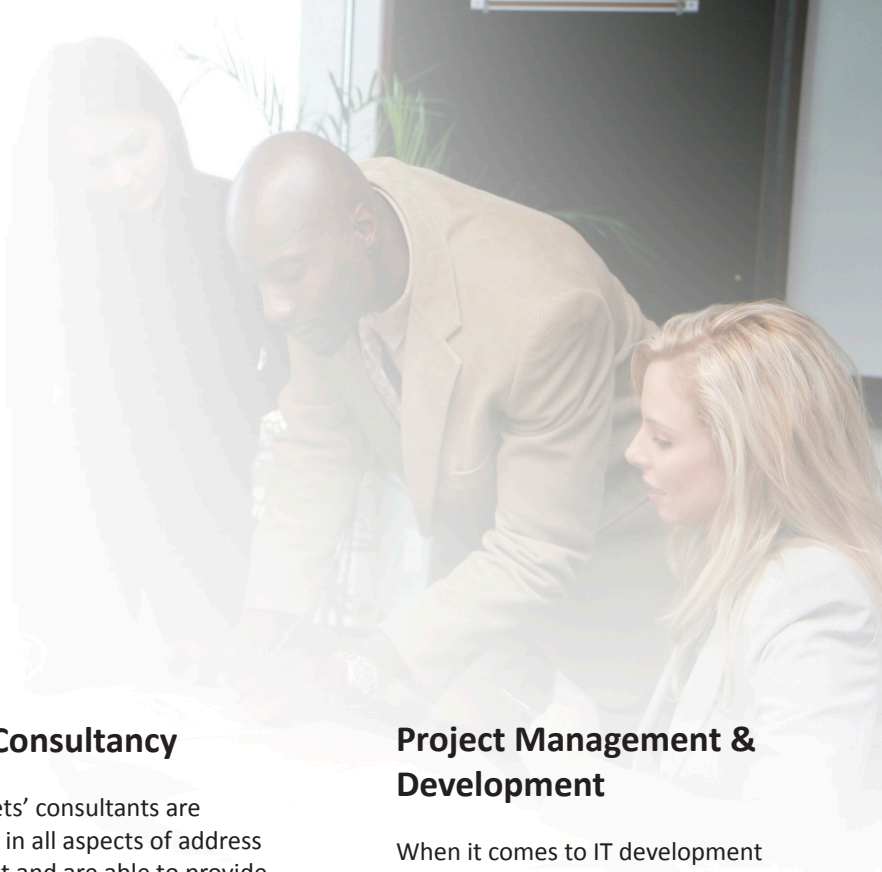

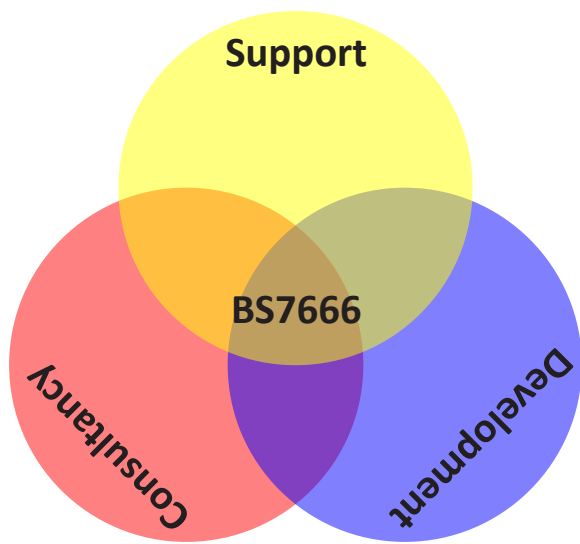

Aligned Assets have provided BS7666 consultancy services to a large number of organisations in the UK. Our in-depth knowledge of the standard and workings of gazetteers, combined with our varied experience with local government data means that we can provide simple solutions for complex data issues.

We are committed to:

- Forming partnerships with our customer
- Providing services that are accurate, timely and cost effective
- Meeting and exceeding customer expectations
- Providing unparalleled levels of post-sales support

"Few companies give the level of customer support that Aligned Assets give."

- Martin Laker, Bath & North East Somerset Council

BS7666 Support

The provision of software, consultancy, project management and training without support of the highest level would simply be negligent. This is why we are able to offer support that is both friendly and highly professional.

BS7666 Support Package

We provide a complete, priority support package that gives you quick solutions to everyday issues. Customers benefit from a support hotline that is manned by expert staff ready to take your call.

Our team of consultants has over 20 years experience of working with local government and the emergency services, and have a first-rate knowledge of the BS7666 standard. Whatever crops up, we can support you every step of the way.

BS7666 Consultancy

Aligned Assets' consultants are experienced in all aspects of address management and are able to provide advice, specifications, proposals and project management for gazetteer and GIS solutions.

Our consultants are able to work with you to find out what it is that you need and to provide solutions that are designed to both meet and exceed your expectations.

Our strong reputation for helping organisations to meet Government targets means we have provided consultancy on NLPG, NSG and ASD.

In addition, our knowledge and experience means we can provide simple solutions for complex problems whatever your address management needs may be.

Project Management & Development

When it comes to IT development projects that are not only costly, but essential to have proceed as smoothly as possible, it is of vital importance to choose a company that you can rely on.

For this reason, the project managers and developers here at Aligned Assets are the most experienced, skilled people in the industry.

We do not rest on our laurels though and to ensure that we remain the industry leaders we continually invest in their training so that your projects are delivered on time and on budget.

We keep our customers honestly updated on the progress of projects and knowing that expenditure is always an issue we do everything we can to mitigate the cost of delays.

We can offer:

- Installation and friendly upgrade advice
- Information regarding future enhancements and releases
- Resolution of Import/export data issues
- Software version advice and compatibility issues
- Data quality checking
- BS7666 Standards Interpretation

We can offer:

- Systems Analysis and Data Audits
- Integration with GIS and legacy systems
- Data and Information Management
- The Creation of GIS and addressing strategies
- System health checks

We can offer:

- Agile or PRINCE 2 development methodologies
- Modifications to our existing software to tailor it to your requirements
- Development of new software solutions
- Engagement with the customer every step of the way

If there is anything else you need help with then we are just on the end of the phone.
