

## *Manage the Complete Life cycle of naming and numbering streets and properties*

# Symphony SNN

*Simplify and quicken your Street Naming and Numbering process*

Symphony Street Naming and Numbering is a powerful, easy to use tool enabling local authorities to increase productivity. Put simply, it enables you to manage the complete life cycle of naming a street or numbering a property.

Local authorities have a statutory obligation to allocate names and numbers to houses and the SNN process has a huge impact not only to the accuracy of the authority's address data but externally is essential to the post office, utility companies and the emergency services.

Symphony SNN ensures all changes in Street Naming and Numbering can be viewed and monitored through it's life cycle.

Not only does Symphony SNN allow you to manage the complete street naming and numbering process, but most importantly it saves you both time and money.

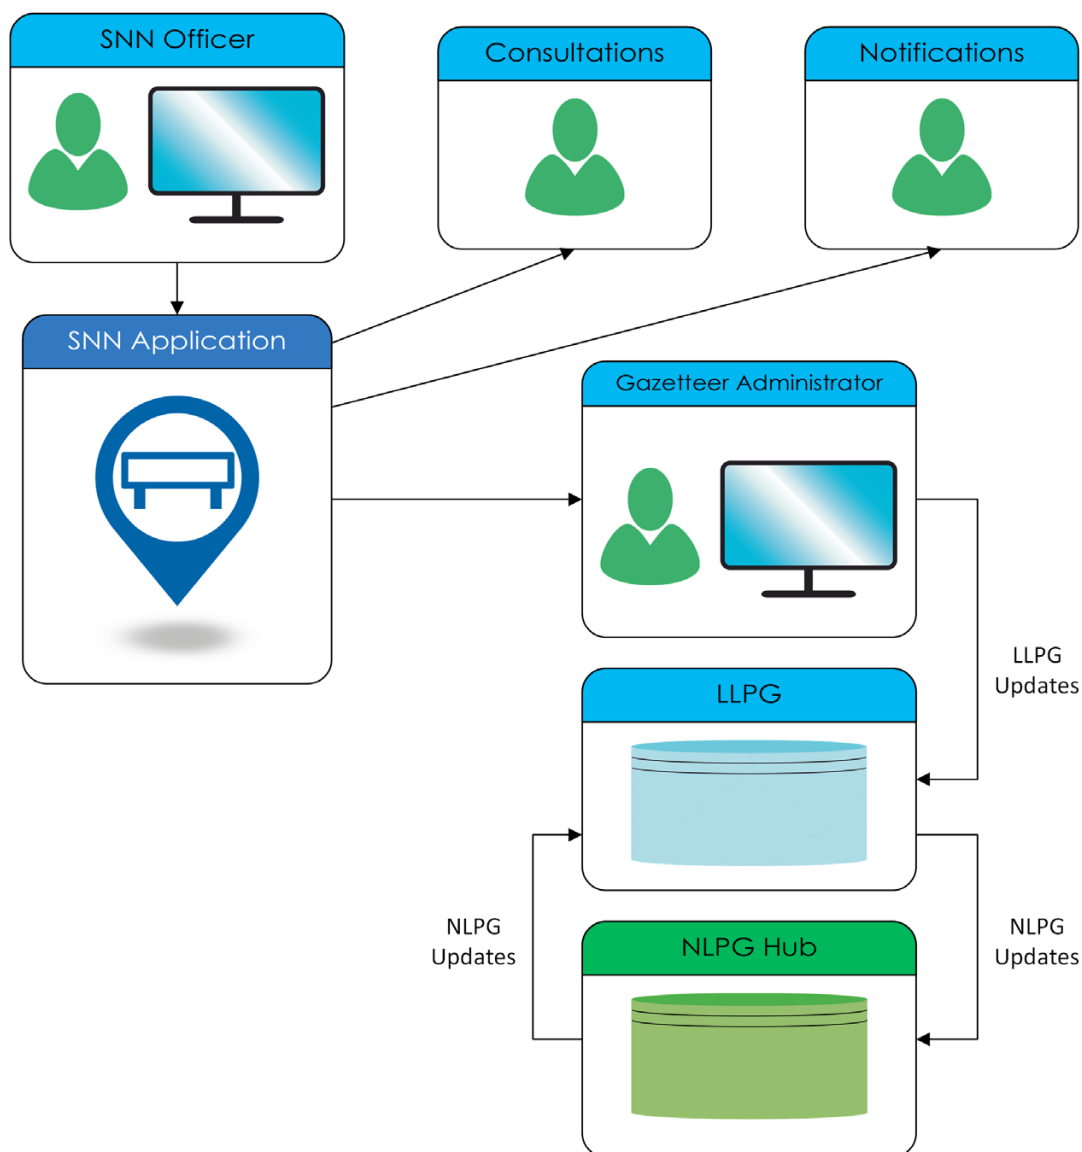

Symphony SNN does not force a methodology onto the Street Naming and Numbering Officer as it can be easily customised to allow you to work the way that you want to.

Symphony SNN:

- Is fully customisable - it works the way you work, including the ability to create customised templates
- Automates your processes into steps which creates your letters, emails etc
- Keeps a full audit trail - ensures you and your team always know where they are
- Makes linking to the LLPG a simple process - configure the process to suit you

# Benefits

- A solution to manage the complete life cycle of a street or property
- Faster processing of cases
- Better information tracking against Key Performance Indicators (KPI's) ensuring you meet standards
- A complete history log, outlining all actions on each Street Naming and Numbering case
- Configurable to your Street Naming and Numbering processes
- Cost savings from a more efficient process
- Manage multiple Street Naming and Numbering scenarios under one case
- Contact management of applicants, consultants and developers
- Seamlessly integrated with the Symphony Suite
- Address lookup to LLPG
- Ability to provide a unique case number to each SNN case assisting with the cross reference to the LLPG
