

*The complete emergency service, address management solution*

# Bluelight Gazetteer

*Safety and Security Through Corporate Gazetteer Management*

The Symphony Bluelight Gazetteer is the industry leading, corporate gazetteer management system for the emergency services.

It is the only BS7666 compliant gazetteer system built specifically for the emergency services and as such contains functionality not available anywhere else.

Symphony Bluelight Gazetteer allows the emergency services to take copies of and updates to AddressBase® Premium, which can be built on with local records and extended via the Xtended Data Module.

Because your local records will be created automatically in an AddressBase® Premium format, sharing them with other organisations (and having them share their's with you) will become a very simple process.

Symphony Bluelight Gazetteer has been designed and built in collaboration with the emergency services and is suitable for use by the Fire & Rescue Service, Police Force and Ambulance Service.

It is the culmination of several years worth of consultation, research and development, and is under constant review to ensure ongoing compatibility with the frontline and back office systems it is designed to supply addressing to.

With BS7666 the chosen format for any future National Emergency Services Gazetteer, your data will already be compliant with those developments.

# Features

- Fully Exploit AddressBase® Premium data
- Ability to build a corporate gazetteer
- Complete BS7666 compliancy
- Utilise the power of the UPRN
- Create and manage local, non-AddressBase® Premium records
- Establish links with frontline and back office systems
- Customise and upgrade with additional modules
- Import and Export local only records
- Add multiple free text notes to a property or land
- Add Security Classifications to a property
- Maintain abbreviations and have them respected within a search
- Publish AddressBase Premium changes to make them available to other systems
- View candidate and processed Candidate records alongside AddressBase Premium records
- Manage Local Records
- Extend your gazetteer via the intuitive management console
